PROJECT

StyleX- Ecommerce

- This Django-built fashion e-commerce system, StyleX, facilitates product browsing and purchasing with a unique size-specific color display and multi-currency support. It includes user authentication, a shopping cart, and order management features.
- Experience it here: <https://stylex-lifestyle.vercel.app/>

StellarStories

- This web application allows users to create, read, edit, and delete blog posts. To access these features, users need to register and log in to their accounts. Once authenticated, they can manage their blog posts with ease
- Experience it here: <https://github.com/mdakbari/StellarStories>

Restaurant Table Booking

- The website simplifies the table booking process for users. Guests can easily browse through available tables, make reservations, and receive instant confirmation or rejection notifications.
- Experience it here: <https://manthanakbari.pythonanywhere.com>

Shipwallseller - Landing Page

- I created a single-page website or landing page with an integrated, user-friendly form. This form enables email notifications and WhatsApp message submissions upon completion.
 - Experience it here: <https://shipwallseller.com/>
